SCHOOL DEVELOPMENT AND MUTUAL LEARNING

Poster reflection of my internship abroad

Abstract:

This poster can be used by teacher training students to reflect their internship abroad in a seminar context. It gives an insight into their internship and students are asked to link their experiences abroad to their preparatory seminar and their later job as teachers. The topics can be adapted depending on the internship.

The poster also serves as an exchange between students who have their stay abroad ahead of them and students who have already completed their stay abroad.
