

# ITLS INTERNATIONAL TEACHERS FOR TOMORROW'S SCHOOL

SYSTEM CHANGE AS AN OPPORTUNITY FOR INTERCULTURAL  
SCHOOL DEVELOPMENT AND MUTUAL LEARNING

## Exercises and materials for intercultural teacher training

### Abstract:

In this collection you will find exercises and materials that are used by the project partners of the ITTS project. They are applied in seminars and workshops to raise awareness of intercultural and racism-critical issues. The materials have not been developed by ITTS, they come from other authors and institutions.

As diverse as the backgrounds and work references of the ITTS partner institutions are, as different as the orientations of 'intercultural' educational work, we as ITTS team could not agree on exercises and materials that are supported by all partners in terms of content and objectives. Therefore, the recommendations are the responsibility of the project partner mentioned in the respective subtitles.

## Recommendations for exercises and materials for intercultural teacher training

Advisory note: Whilst these online resources may be useful it is always required to critically evaluate and where possible adapt to specific groups and needs. There are, for example, a range of ways to define culture and not all materials use the same definitions. Moreover, the discussion of culture and intercultural issues can reinforce stereotypical thinking instead of reducing it. The critical reflection of one's own glasses and perception traps must therefore continuously accompany educational work in the migration society.
